

# How to measure for a continuous curve bay

1 Please provide a photograph of the bay window area

2 Complete the measurements below (Please refer to pricelist & specification guides for availability)

Cross Measurements

A-B	Optional distances for return bends (see application guide for minimum wall space required)
B-C	
A-C	1-A
D: Do not measure	2-C

When measuring ensure bay is a continuous curve & does not include any straight sections as shown in the diagram (D).

If in doubt please discuss with the sales team.

In some instances a template may be required.

3 Final Location Please confirm where you would like your finials

1. Outside point A       2. Inside point A       3. Distance from point A

If option 3, please specify distance from point A

Ceiling Mounted?

Yes  No

If yes please specify projection from wall

4 Order Declaration

Please ensure all sections are complete and note that errors made on this form could mean your bay system will not fit correctly. Bay systems cannot be exchanged, replaced or refunded.

I confirm the given measurements are correct and on this basis wish to proceed with an order.
