A SYNERGY OF GLASS AND LIGHT

Glass captures, transmits and reflects light like nothing else, which is why we love using it in our designs. The beautifully reflective qualities of glass 'bounce' light everywhere, creating soft layers of illumination and allowing you to create a stunning focal point in your home without losing a sense of space.

Handblown and pressed by a skilled team of craftsmen, each piece has a unique signature that means no two are the same, making them even more special. Our glass has a wonderfully tactile quality that looks as good in your home as it does in your hands.

A NEAT SOLUTION

Our extended family of flush fitting ceiling lights are a great choice for older properties with restricted ceiling heights. Pair our Flush Mount Ceiling Rose with a pendant shade of your choice for a truly individual look, or choose one of our brass or glass lights for a warm, metallic touch.

AMBIENT LIGHTING

Using wall shade brackets and textured neutral half shades is a clever way to fill a room with gentle layers of soft lighting- a great designers trick for creating a relaxed, cosy atmosphere.

PICTURE LIGHTS

DRUMMOND PICTURE LIGHT

Our most popular picture light design has two simple fixing choices, enabling the light to be fixed either to the wall or picture frame as required. The clean lines and refined detailing are a simple and elegant way to show art in your home.

£25.00

Dimensions: H 9.4 W 9.4 D 1.7cm

Shown in Antiqued Brass

LIGHTING PATTRESSES EXPLAINED

Extra wiring capacity for pendant lights using Georgian ceiling roses and wall lights using Georgian and Club backplates

Wiring in period homes can be a tricky business. We have developed a neat backplate pattress which enables wiring to be fitted externally, if required. This pattress works with a wide range of our ceiling roses and wall light backplates and comes in all corresponding colourways to create a subtle but practical wiring solution. Please refer to the Knowledge Base on our website for further information.
