

A photograph of a window with patterned curtains. The curtains are a light beige or cream color with a subtle, repeating floral or damask pattern. They are hung from a silver-colored metal pole using rings. The pole is mounted on a white wall. The window itself is partially visible on the left, showing a view of green foliage outside. The lighting is soft and even.

## CHOOSE YOUR FORGED IRON POLE LENGTH

Use the guide below to calculate your pole length. For further help, please call 01473 826929.

### Helpful tips

- A.** Don't forget to ensure there is room for your chosen finials.
- B.** Poles over 180cm long will require a centre bracket and will be supplied in two parts.
- C.** To calculate the number of rings you need for your pole, divide the length (in cm) by 7.

## BRASS CURTAIN POLES

The undeniable elegance of solid brass is clear to see. Subtly antiqued with a beautiful aged patina, this collection brings enduring period style to any home.

### CHOOSE YOUR POLE LENGTH, DIAMETER & STYLE

#### Length

Our poles are made to measure. If you need help deciding on your pole length, see our helpful guide on page 215. If you would like some advice, please call us on 01473 826929.

Any length of pole can be ordered, but if over 180cm long we would recommend a central support bracket and if over 210cm long it will be supplied in two (or more) equal parts with a joiner rod. The join will be covered by your central bracket

#### Diameter

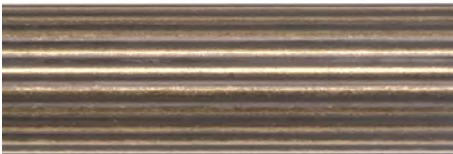

Our range of Antiqued Brass Poles are available in two sizes: 19mm and 25mm.

## CAFÉ ROD

A “café rod” is a slim, decorative curtain rod, often used with short, lightweight curtains or voile panels, specifically designed to allow light in while providing privacy at eye level, making them popular for kitchens, bathrooms, and other areas where a balance of light and privacy is desired. For voile panels please visit <https://www.jim-lawrence.co.uk/page/curtains-and-blinds> for full details on how to order and how to measure up.
